

Panel

The panel is a component that works Header/Footer bar to build a page. The panel support various colors and can use overlapped colors.

Base Code

The panel uses `<div class="ui-body-[a~g]">` as base code. The a to g supports panel's color change.

Panel

```
<div class="ui-body-c center"><h4>Panel</h4></div>
```

Color Change

To change colors, change `<div class="ui-body-[a~g]">`.

Content A

Content B

Content C

Content D

Content E

Content F

Content G

```
<div class="ui-body-a">
  <h4>Content A</h4>
</div>
<div class="ui-body-b">
  <h4>Content B</h4>
</div>
<div class="ui-body-c">
  <h4>Content C</h4>
</div>
<div class="ui-body-d">
  <h4>Content D</h4>
</div>
<div class="ui-body-e">
  <h4>Content E</h4>
</div>
<div class="ui-body-f">
```

```
<h4>Content F</h4>
</div>
<div class="ui-body-g">
  <h4>Content G</h4>
</div>
```

Pattern Change

To change the panel's pattern, add **class="egov-panel-pattern-a~g"** to the base code.

Pattern Change

```
<div class="ui-body-f egov-panel-pattern-f"><h4>Pattern Change</h4</div>
```
